Career Objective

Motivated Computer Science graduate with hands-on experience in Python, Django, React.js, MySQL, and REST API development. Skilled in building responsive web applications and full-stack solutions. Seeking an entry-level Python Full Stack Developer position to contribute technical expertise and grow within a dynamic software development team.

Education

Bachelor of Science in Computer Science

Sivanthi Aditanar College, Nagercoil

2022 – 2025

Higher Secondary Education (Computer Science)

GHSS - Sillamarathupatty

2020 – 2022

Experience

Front-end Developer Intern

Jan 2026 – Mar 2026

Network Systemz

- Developed responsive web interfaces using HTML5, CSS3, JavaScript and Bootstrap.
- Designed modern UI components.
- Improved responsiveness and browser compatibility.
- Collaborated with team members to debug frontend issues.

Python Full Stack Developer Intern

Apr 2026 – Jun 2026

NIM Technologies

- Developed full-stack web applications using Python, Django, React.js and MySQL.
- Built REST APIs.
- Implemented authentication and CRUD operations.
- Participated in testing, debugging and deployment.

Projects

NovaBook Web Application

2026

- Developed a full-stack online bookstore application using Django, React.js, and MySQL.
- Implemented JWT authentication, book management, shopping cart, orders, and user dashboard.
- Built REST APIs for seamless frontend-backend communication.
- Optimized application performance and responsive user interface.

NovaChat Deployment

2026

- Deployed Django backend and React frontend on cloud hosting platforms.
- Configured static files, REST API integration, environment variables, and production settings.
- Performed testing, debugging, and deployment optimization.
- Implemented authentication and REST API integration using Django and React.

Phamon Marketplace Platform

2026

- Developed a full-stack e-commerce marketplace using Django, React.js, and MySQL.

- Implemented JWT authentication, vendor dashboard, product management, cart, orders, and payment workflow.
- Built REST APIs for frontend-backend communication.
- Improved application performance and responsive design.

Technical Skills

Programming Languages: Python, JavaScript

Frontend: HTML5, CSS3, Bootstrap, React.js, Tailwind CSS

Backend: Django, Flask

Databases: MySQL, MongoDB, SQLite

Tools: Git, GitHub, Postman, VS Code

Concepts: REST API, CRUD, JWT Authentication, Responsive Design
